Changing the World, One Child At A Time

In our world things are not going great.
Let's change our ways before it's too late.
Changing the world, one child at a time.

Learn to value and respect yourself.
Leave drugs and alcohol on the shelf.
Teaching the world, one child at a time.

Garbage all over is a disgrace.
By picking it up you are an ace.
Cleaning the world, one child at a time.

Reuse, reduce, recycle your stuff.
You can help the world to have enough.
Helping the world, one child at a time.

Sponsor a child, help out some families.
Volunteer to build communities.
Building the world, one child at a time.

Participate and don't over eat.
Being healthy and fit is a treat.
Training the world, one child at a time.

We have learned that change starts with a word.
If you spread the word it can be heard.
Change, teach, clean, help, build, train every child.
